

CONTENT

1	EXECUTIVE SUMMARY	6
2	THREE PAGE SUMMARY	7
3	INTRODUCTION	10
3.1	BACKGROUND OF THIS STUDY	10
3.2	BENEFITS OF ACCESSIBILITY	10
3.3	CONSIDERATIONS AND ASSUMPTIONS.....	11
3.3.1	<i>Conventional rail</i>	11
3.3.2	<i>Limiting the scope</i>	12
3.4	STRUCTURE AND CONTENT OF THE DOCUMENT	12
4	THE WAY IT SHOULD BE: INDEPENDENT ACCESS.....	13
4.1	DESIGN-FOR-ALL, ACCESSIBILITY AND SPECIAL SOLUTIONS	14
4.2	SPONTANEITY AND INDEPENDENT LIVING.....	14
4.3	DISABILITY AWARENESS AND DISABILITY EQUALITY	15
4.4	ELECTRIC WHEELCHAIRS, SCOOTERS AND MINI-CROSSERS	15
5	BETWEEN HERITAGE AND OPPORTUNITIES	16
5.1	THREE LEVELS OF ACCESS	16
5.1.1	<i>Restricted Access</i>	16
5.1.2	<i>Dependent Access</i>	17
5.1.3	<i>Independent Access</i>	17
5.2	HERITAGE.....	18
5.3	TODAY.....	18
5.3.1	<i>European Legislation - PRM TSI</i>	19
5.3.2	<i>Advanced Access Requirements</i>	21
5.3.3	<i>Awareness and Commitment</i>	21
5.4	OUTLOOK – A SOLID SOLUTION.....	22
5.4.1	<i>Stan- alone solutions</i>	22
5.4.2	<i>A global regional and suburban railways solution for accessibility</i>	22
5.4.3	<i>Migration to Independent Access in Europe</i>	23
6	LEVEL BOARDING.....	25
6.1	STEP AND GAP REQUIREMENTS.....	25
6.1.1	<i>The PRM TSI Step and Gap dimensions</i>	25
6.1.2	<i>The LibeRTiN recommendations</i>	26
6.1.3	<i>HandiGap: new findings for step and gap dimensions</i>	26
6.1.4	<i>The Barcelona accessibility map</i>	27
6.1.5	<i>Translating “most” into step and gap millimeters</i>	27
6.1.6	<i>A “public transport” wheelchair</i>	28
6.2	TECHNOLOGICAL CONDITIONS.....	28
6.2.1	<i>Mainstream Boarding Devices for Level Boarding</i>	30
7	BOARDING DEVICES.....	31
7.1	BOARDING DEVICES FOR EACH LEVEL OF ACCESS	31
7.2	BOARDING DEVICES IN GENERAL	31
7.2.1	<i>Manually versus Automatically/Electrically operated Boarding Devices</i>	32
7.2.2	<i>Platform versus Onboard- based Boarding Devices</i>	32

7.2.3	<i>Boarding time</i>	33
7.2.4	<i>Opening and closing of the door/ Independent Level Boarding</i>	33
7.2.5	<i>Step down/ step up</i>	34
7.3	PLATFORM- BASED BOARDING DEVICES	34
7.3.1	<i>Platform- based mobile Boarding Devices</i>	34
7.3.2	<i>Platform-based fixed Boarding Devices</i>	37
7.4	ONBOARD-BASED BOARDING DEVICES	39
7.4.1	<i>Onboard ramps</i>	39
7.4.2	<i>Onboard based lifts</i>	39
7.4.3	<i>Onboard based step/gap fillers</i>	40
7.5	BOARDING DEVICES IN DETAIL	41
7.5.1	<i>Ramps</i>	41
7.5.2	<i>Lifts</i>	43
8	OPERATION	44
8.1	TECHNICAL AND/OR STAFF ASSISTANCE	44
8.1.1	<i>Coordination procurement/ project phase</i>	44
8.1.2	<i>Effect on the timetable</i>	44
8.1.3	<i>Door opening process</i>	45
8.1.4	<i>Train crews and call centres</i>	45
8.2	EFFECT ON THE ROLLING STOCK AND INFRASTRUCTURE	46
8.2.1	<i>Immediate measures</i>	46
8.2.2	<i>Design and engineering of carriages</i>	47
8.2.3	<i>Differences between old and new rolling stock</i>	47
8.3	THE SWISS APPROACH	48
8.3.1	<i>Drive to standardisation</i>	48
8.3.2	<i>Intermediate or definitive solution</i>	48
8.3.3	<i>Level Boarding and gap bridging</i>	49
9	RECOMMENDATIONS	50
9.1	STEP AND GAP RELATED	50
9.2	GENERAL	50
10	ANNEX	52
10.1	DEFINITIONS USED	52
10.2	MEMBERS OF THE REGIONAL AND SUBURBAN RAILWAYS COMMITTEE	53
10.3	CONTACT DETAILS ACCESS WORKING GROUP	54

TABLES

Table 1: A collection of PRM TSI conditions and exemptions.....	20
Table 2: PRM TSI Step and Gap dimensions for 55 cm platforms	25
Table 3: The LibeRTiN Step and Gap recommendations	26
Table 4: The HandiGap Step and Gap findings.....	26
Table 5: The Barcelona accessibility map.....	27
Table 6: Manually operated Boarding Devices	32
Table 7: Automatically/electrically operated Boarding Devices.....	32
Table 8: Platform-based (manually operated) mobile ramps	36
Table 9: Platform-based (automatically/electrically operated) mobile lifts	37
Table 10: Onboard-based ramps	39
Table 11: Onboard-based lifts	40
Table 12: Maximum height differences for ramps	41
Table 13: Gradients in degrees, percentages and ratios!	42

GRAPHICS

Graphic 1: The four different levels of Independent Access following Design-for-All.	14
Graphic 2: An arbitrary collection of (mini) “crossers” and other private boarding aids.	15
Graphic 3: Simple mobile (platform/onboard) ramp	35
Graphic 4: Mobile articulated platform ramp	35
Graphic 5: Mobile platform lift.....	35
Graphic 6: Pictures of simple platform/onboard based mobile manual ramps.	35
Graphic 7: Pictures of articulated platform based mobile manual ramps.	35
Graphic 8: Open mesh structure.....	36
Graphic 9: Pictures of platform-based mobile manual lifts.....	36
Graphic 10: Pictures of platform-based automatically/electrically operated mobile lifts.....	36
Graphic 11: One platform, two heights, via ramp	37
Graphic 12: Platform-fixed ramp section (with lift).....	37
Graphic 13: Fixed platform gap filler/bridging plate	37
Graphic 14: One platform with two heights.....	38
Graphic 15: Fixed platform ramps	38
Graphic 16: Fixed platform “moving” gap fillers.....	38
Graphic 17: Pictures of simple platform/onboard based mobile manual ramps.....	39
Graphic 18: Pictures of train-based automatically/electrically operated lift	39
Graphic 19: Schematics of Onboard-based step/gap fillers.....	40
Graphic 20: Pictures of Onboard-based step/gap fillers	40
