**Dipl.-Ing. (FH) Andreas Weitemeyer, Head of Department Stadtbahnwerkstätten
at Verkehrsgesellschaft Frankfurt (VGF)**

After his study of mechanical engineering at RheinMain University of Applied Sciences he joined Honeywell Aerospace and worked in engineering and operational department with a strong focus on Lean Production Methods. After Honeywell he worked for Interfleet as a consultant (Operations and Maintenance) before joining VGF in May 2014.

At VGF he is responsible for the 4 Vehicle Workshops. With his team he assures the safe and reliable operation of the ~390 Frankfurt owned trams.
