

JRC - UITP EU Regions Week Workshop

Future urban mobility: Mobilising different knowledges in the debate

9 October 2019 – 11:30 - 13:00
Square Convention Centre, Brussels

11:30 – 12:00 PART 1: PRESENTATIONS

DESCRIPTION: The first part features two 'primers': short presentations in relation to the implementation of international and European climate and air quality goals through sustainable urban mobility strategies and the concerns emerged in the Horizon 2020 project MAGIC regarding the large-scale implementation of electric vehicles in Europe.

> Welcome & Introduction (10')

- Ângela Guimarães Pereira, Joint Research Centre of the European Commission
- Nicolas Blain, Chair of the UITP European Division and Head of International Relations and European Affairs Unit, RATP Group, France

> Bolstering sustainable urban mobility to achieve climate & air quality goals (10')

- Roger Kesteloot, CEO, De Lijn, and Vice-chair of UITP's Sustainable Development Committee

> A critical reflection on large-scale implementation of electric vehicles in Europe (10')

- Maddalena Ripa, MAGIC researcher, Autonomous University of Barcelona, Spain

12:00 – 12:50 PART 2: WORLD CAFÉ DISCUSSIONS

DESCRIPTION: The second part consists in small group conversations on issues raised by the primers. Participants will be encouraged to formulate 'snapshots' of city mobility in 2030, taking stock of the discussions held. This will be done through a brainstorming of possible visions, guided by co-design methodologies.

> World-café discussion

Participants will be divided in 6 round-tables, with one moderator each.

12:50 – 13.00 CLOSING: KEY TAKEAWAYS OF THE DAY
