Biography Trainer

Luc van Wijngaarden, CEO, Zight, The Hague, The Netherlands

Luc was born and raised in The Netherlands. He studied Econometrics & Operational Research at the University of Amsterdam. After his graduation he started as a consultant. From 2001 until 2009 Luc worked for Transdev-Connexion, the largest bus operator in the Netherlands. He was involved in the implementation of the Dutch nationwide e-ticketing system and responsible for tariffs, marketing and sales. In 2009 Luc was one of the founders of Zight that supports the transit industry in benefitting from the value of their data.

Zight supports public transport operators & authorities in benefitting from their data. With information systems, consultancy and training we help to improve profit, performance and satisfaction using the available data. We serve clients like RTA Dubai, DB Arriva, Veolia, Qbuzz Abellio, RET Rotterdam, UITP, Albany (NY), RATP DEV and the Dutch Railways.
