Mike Weston, Independent Consultant, London, UK

Mike joined London Transport in 1985, initially working in bus network planning and the management of bus contracts and bus infrastructure. He became Operations Director in 2004 and from October 2013 until September 2016 he was Director of Buses which included responsibility for the procurement, performance and development of the London bus network. Mike was also responsible for the environmental management of London's bus fleet including the

delivery of the New Routemaster project and the early trial and deployment on electric buses into London. Mike was chair of the UITP Bus Committee from May 2015 until September 2016 and currently chairs the UK Low Carbon Vehicle Partnership's bus working group.
