

Mircea Steriu, Statistics Manager, UITP, Brussels, Belgium

Mircea Steriu is the UITP Statistics Manager, supporting UITP advocacy activities. Mircea collected and analysed the data for the Mobility in Cities Database 2015, as well as statistics briefs on various topics. He previously worked in several Brussels-based advocacy associations in the transport field where he managed a number of projects co-funded by DG MOVE. At UITP, Mircea is working on the design, data collection and analysis for a number of mobility-related benchmarking activities. He studied European Politics, Political Science and Journalism in Belgium and Bulgaria.
