

Adrien Moulin, Manager UITP Training Center

Adrien Moulin joined UITP in 2009 where he took over activities related to transport authorities, statistics, marketing and product development. In 2013 he joined the UITP Centre of Excellence (CTE) in Singapore set up in cooperation with the Land Transport Authority (LTA). In Asia, he led the development of training programmes and supported the implementation of activities in the Asia Pacific region, in particular the SITCE conference and the Indian activity portfolio.

Since January 2015 Adrien works in Brussels for the UITP Centre for Training where he acts a trainer and supervises the European training portfolio. Among others, he developed UITP courses on Electric Buses, Automated Metros, Mobility as a Service (MaaS), new bus related programmes and Travel Information Design. He is Franco-German and studied geography and town planning in France and the United Kingdom, before working on EU-funded projects at the University of Newcastle-upon-Tyne and then for the ECORYS Research & Consulting Group in Brussels.
