

PRESS RELEASE

BUSWORLD: ONE MONTH TO GO!

BRUSSELS, 21 SEPTEMBER 2017

UITP and Busworld Europe have joined forces to bring you an unmissable event: with only one month to go until our conference drives the debate on the bus industry.

The two day conference - in conjunction with Busworld Europe 2017 Exhibition - will take place in Kortrijk bringing together two world class events.

Under the theme "Integrate + Connect!" several leading industry figures will discuss topics such as digitalisation, electrification, automation and new service concepts.

During our conference you will be able to attend the Chinese eBus session where four top level speakers will give an overview on the introduction of the E-Bus in China (Monday 23rd). Senior figures from the Zhengzhou Yutong Bus Company and the Shenzhen Bus Group will discuss the deployment and technology behind this exciting industry development.

You will also be able to view the launch of the UITP bus design charter for innovative electric buses - holding its world premiere during the event (Tuesday 24th).

Many key topics will be discussed with over 40 speakers from across the bus sector and beyond.

This is an exciting time in the public transport sector - from the development of autonomous vehicles to the roll-out of large electric bus fleets - this conference will engage the industry and deliver innovative concepts for all who attend.

By attending Busworld you will get the complete picture of what's happening in the bus sector; network with experienced bus operators and get fresh, cutting edge concepts to take back to your organisation.

This collaboration is not to be missed – make it your **Business** to attend!
