**Carlo Bianco, Operation Director Automated Metro Lines,
Azienda Trasporti Milanese - ATM, Milan Italy**

Carlo Bianco is a highly experienced senior rail Operations Director with railway management roles stretching back to the 1980s. He has extensive international experience across a broad spectrum of rail mobilization, rail operations and maintenance delivery. He developed his career into ATM group, the operator of Public Transport in the city of Milan (Italy). Recently he focused his activity on driverless metro operation and has been for five years Operations manager in Copenhagen Metro (Denmark), system currently operated by ATM.

In 2011 he has been responsible for the startup of the automatic people mover of Princess Noura University in Riyadh (Saudi Arabia). In 2012 he returned in Milan as responsible for the startup of the new driverless line 5 which started commercial operation in February 2013. Carlo's operations experience also extends to the project phase – pre-revenue operation

He is currently serving as Safety Director for Metro Network and Operation Director for automatic metro lines in ATM Milan. He is also Deputy Chairman of the Board of Metro Service A/S Copenhagen.
