Mikkel Krogsgaard Niss, Head of Section and project manager, City of Copenhagen, Center for urban development

Mikkel Krogsgaard Niss is head of Section at City of Copenhagen. During the last years, Mikkel has worked as project manager for environmental projects in relation to public transport with a strong focus on e-buses. He managed a tender for electric buses during the fall of 2015 and discovered the differences in tendering for diesel bus operation and for e-buses. Currently Mikkel Works closely together with the local PTA Movia on developing standards for separate tendering of charging infrastructure for e-buses.

During the last 10 years, Mikkel have worked in the public sector. Primary areas of work are public transport, freight and environmental issues. Mikkel Krogsgaard Niss has worked four years for the City of Copenhagen and prior to this for the Danish Transport Authorities and The Danish Board of Technology.

Mikkel holds a master degree in environmental planning from Roskilde University.
