UITP Training Partnership

Advancing Talents in Public Transport

During the period of Covid-19 and during the coming months, UITP will be organizing e-training programs that will replace the regular trainings.

UITP has developed a portfolio of e-training programmes that can play an important role in the development of companies business and public transport provision. UITP ensures that the trainees receive the best possible training to reach their full potential and prepare their business to meet the mobility challenges of today and tomorrow. Over 1000 companies have participated up to now in the UITP training programmes. One training programme consist of 7 to 8 sessions. Each session is of 90 to 120 minutes. Around 50 participants from different countries.
UITP will make announcement of the e-training to its members
