DIPLOMA PROGRAMME FOR MANAGERS

IN PUBLIC TRANSPORT

Our flagship programme, existing for more than 20 years, is an expert-level yearlong course composed of three modules in three different countries. It includes additional online sessions (e-learning) organised between the classroom modules.

The UITP Academy also offers other Diploma Programmes, combining different courses within a specific field of interest.

“This course can be recommended to all transport authorities and it will definitely help to improve service to their customers.”

Jeff Ngcobo, City of Johannesburg, UITP Training Programme on Quality and Service Excellence.
